**If you could travel back in time to attend any concert or performance, which one would it be?**

If I could go back in time, I would go to Vienna on May 7<sup>th</sup>, 1824 to witness the premiere of Beethoven's 9<sup>th</sup> Symphony.

**What is something people don't know about you?**

I love to play Texas Hold-Em.

**What was the last concert you went to, and what did you enjoy about it?**

The last concert I attended was Paul Simon and Sting at the Pepsi Center... it was nostalgic.

**Do you have a favorite composer or piece of music that you always find yourself returning to? What draws you to it?**

I have too many favorite composers and pieces... but if I had to choose, it would be Ralph Vaughan Williams' *Fantasia on a Theme by Thomas Tallis*, Frédéric Chopin's Nocturnes, Erik Satie's Gnossiennes and Gymnopédies, and Beethoven's Moonlight Sonata... Why? Because they are moody, just like me.

**Classical music is my passion, but I also like...**

While I enjoy Classical Music, and announce it for a living, I also love listening to other genres of music including Film scores, New Age or Spa music, Christian, and 60's, 70's, and 80's.

**What's the most unusual or unexpected place you've found inspiration for your KCME program?**

Movies... and that's all I have to say about that...
